

August 3, 2015

Dearest brother John and sister Tracy,

Let my prayer be the key to bless your day. May the Lord touch your life with joy, bless your heart with love and comfort your soul with peace.

We had heavy rains in the month of July. The southwest monsoon triggered by the three typhoons that passed through the Philippines brought moderate to heavy rains to several regions of our country. The downpour continued for almost two weeks that resulted in the flooding of many places including our own town. Classes were suspended for several days in all levels because streets and roadways became impassable. In spite of the recent torrential rains, we are very grateful to God

for keeping us all safe.

Before and after the rains and floods, we were able to distribute hundreds of tracts to the students of the Calasiao Comprehensive National High School. We encouraged them to give time to read their Bible and asked them to study with us during their vacant time. Some of them became interested in searching the Scripture and we are meeting with them for at least three times a week. We asked their help to invite also their classmates and friends to join us in our Bible study. We are hoping and praying that more students will be joining us in the following days.

We also continue to visit and edify our brethren in Christ who are facing difficulties in life. Some of

those that we have visited are struggling with their everyday needs, family relationships, and some are dealing with health issues. We don't have all the answers to their questions but we just hope that our presence

and the Scriptures that we read and studied together will help them to keep moving forward in their Christian life and in serving the Lord.

We continue to express our heartfelt appreciation and gratitude for all your prayers, concern, thoughtfulness, and support for your brethren and the work of the Lord here in the Philippines.

Yours because of Calvary,
