

August 1, 2016

Dearest Brother John and Sister Tracy,

May our loving Father in heaven bless you always with love and strength and keep you safe from all harm.

We give God all the glory and honor for all the opportunities He has given us to continuously serve our brethren and the people around us who are seeking spiritual direction and nourishment. We

gladly bring and read the Scripture that brings life, hope, and joy to those who have accepted our offer for Bible study at their houses, under trees, or in any place they feel comfortable. We listen to the prospects as they confide their life stories, problems, heartaches, and downs to us, and then we invite them also to lend their ears to what God has to say to them through His word. We feel happy and thankful to God whenever they say that what they have learned from the Word of God has helped them a lot in many ways. We are excited and we

appreciate so much when they tell us to come back for a follow-up Bible study. Our hospital visit and feeding program continues to give encouragement and inspiration to a lot of people and it also keeps building a bridge to connect us to more possible prospects. We also give time to visit our brethren to foster love and concern in the family of God. We pray for those who are sick, help those who are in need, and edify those who are going through trials and hard times.

Let us all praise God and give Him all the glory for the salvation of one precious soul in July. Our

new sister in the Lord's family is Sheryl Eufemio. Sheryl was attending a denominational group where she grew up through the influence of her auntie. We met her while we were studying with her in-laws. She shared with us what she had learned in the past about salvation. When we started to study the Scripture together about

salvation, she realized that what she had learned before was different from what she herself was reading in the Bible. She attended our Sunday services twice. After our series of Bible studies with her, she finally decided that she would obey the power of God to salvation in baptism. We baptized her for the forgiveness of her sins on the Lord's day after the services.

We appreciate so much all your prayers, love, concern, and support for the work of the Lord here. May the Lord continue to richly bless your family, your congregation, and all that you do for His cause.

Yours because of Calvary,
