

Dear brother John and sister Tracy,

May the Almighty Father in heaven keep you all physically and spiritually well.

I am so glad to inform you that we already received the balikbayan box this Saturday. We appreciate so much all your effort and all the things you put in the box. We are also touched by the cards and messages that the kids made for us. Thank you very much as well for the box you included for our family. Please let everyone there know that we are very thankful and grateful for what they did and shared. We have already distributed some of the school supplies to some of the needy children and students here in our place. They are all smiling, happy, and thankful. I have also attached the pictures of my son and daughter and these children and students. We will distribute them again to the needy ones in the following days.

Attached are the photos and update on the work of the Lord here in October.

Take care always and God bless.
